Hi Eve,
For future website emails, you don't have to cc me. Thanks!

Olivia, Eve,

Thank you for the prompt response, I appreciate it. I am highly concerned with the direction of my neighborhood, which is the northwest section of Sunland. Currently there are encampments around Sunland park that may be hindering the safety and economic progress of the surrounding businesses. Patrons like myself are reluctant to visit businesses around the encampments and feel it would be best to explore other options for dealing with the homeless population. Many residents have shared the sentiment that there should be no overnight sleeping by residential neighborhoods or commercial areas. As one of the many concerned residents in this area, can you please advise on the following:

- 1) Are there any types of police agencies that can be contacted to enforce certain laws to prohibit encampments?
- 2) If enforcement of laws is not an option, are there any possible avenues for implementing new laws that will prohibit encampments?
- 3) Are there any options for people residing in homeless encampments such as temporary housing?

Numerous residents have already contacted 311 for cleanups and also LAHSA for homeless outreach, however, there appears to be no concrete results. I believe having no results may be due to having relaxed laws or enforcement of them.

Thank you for your time

left feedback on [Contact](#)

“As a current resident in Sunland, CA, many residents are in dismay regarding the direction of the community. Many residents have complained about the homeless situation in the City of Los Angeles and to this office. However, there hasn't been any quantifiable or tangible results. Sunland is turning into a tent city and residents have expressed concern over this. As a resident, I do not support tents close to a residential area or in a commercial area. How is this being addressed or rectified? ”
